

Relations

Arthur Fouray

How the works, projects and pages of arthurfouray.systems refer to one another: the people, places and series they share, what one shows of another, and the words that recur between them. Every relation is quoted from the site or from the curriculum vitae.

——— a relation quoted from a page
- - - inferred from a shared word, name or number

The idea of Relations is rooted in Édouard Glissant's thinking of Relation (Poétique de la Relation, 1990).
